Airport Parking Reservations Puts an end to Airport Parking Lot Frustrations

AirportParkingReservations.com Makes It Easy to Reserve and Guarantee an Airport Parking Spot

Suffield, CT – January 2004 – Many airports have a shortage of convenient, affordable parking due to heightened security and constant construction. How often have you arrived at the airport early and wasted your time searching for a parking space?

AirportParkingReservations.com makes it easier than ever to reserve, and guarantee, an airport parking spot—at a great price.

Company president, Tom Lombardi, comments, “with heightened airport security and airlines requesting check-in up to 2 hours prior to departure, many travelers simply do not have the time, nor patience, to chase around after an empty parking spot. All too often the search proves to be nothing but total frustration.” He continues, “we’ve done the shopping and negotiated great parking rates for you. We offer the public a selection of safe and secure parking operators within 5 minutes of the airport. Most are open 24 hours and all provide free transportation to and from the terminals.”

“The previous fourth quarter, which included Thanksgiving and Christmas holidays, resulted in demand outpacing supply with the traveling public recognizing that airport parking reservations is an integral part of successful trip planning,” he said.

Tom Wilson, owner of Vista Airport Parking at Newark International Airport and of the first airport parking lots to accept reservations noted, “we’ve long appreciated that air travel can be stressful. Our goal is to help take the anxiety out of the traveler’s preflight experience. Allowing our customers to reserve airport parking, in advance, reduces their stress and permits us to better manage our parking lot’s inventory.”

With AirportParkingReservations.com you simply select your airport and enter your travel itinerary, choose your parking vendor, and book your reservation by paying for one day online - it’s quick, safe, guaranteed and the one day paid online will be deducted from your bill at the parking lot. Reservations can also be made Toll-Free at 888-960-PARK (7275).

About AirportParkingReservations.com

Based in Suffield, CT and was founded in August 2000 as the first company offering nationwide airport parking reservations (then as AirportParkingLots.com). Since the beginning we have remained true to our commitment to expand the customer base for off-airport parking operators through a unique combination of technology and multi-channel marketing. Even amid the air travel declines due to the terrorist attacks of 9/11 we invested the resources necessary to generate increasing growth in revenues, earnings, and cash flow. Our experience, industry knowledge, and extensive travel partner network help ensure our long term performance.
